Create a Dramatic and Inviting Stairway

Iron's exquisite appeal harkens back to earlier times of old world elegance while perfectly blending with today's modern architectural styles.

- Design possibilities are endless with the dozens of profiles available in WM Coffman's Woodmark Iron Collection.
- Each profile is offered in a single length, creating a trim from the bottom application. With profiles centered from the top of the baluster, the pattern you choose will always align with the angle of your stair.
- Incorporate 1, 2, 3 or more balusters for a truly unique look. Symmetry and elegance are guaranteed.
- Balusters are designed with a round top pin for easy and aesthetic installations (*exceptions are noted*).
- A full line of accessories and installation adhesive systems add decorative detail while providing secure installations.
